WSCC Careers

Business Systems Analyst, Yellowknife

S 18/33 NT

The Workers' Safety and Compensation Commission's (WSCC) vision is to eliminate workplace diseases and injuries. We promote workplace health and safety while providing no fault insurance to employers and care for injured workers. We uphold the values of respect, engagement, integrity, openness, cultural safety, excellence and stewardship.

The Business Systems Analyst (Analyst) defines, develops, tests, analyzes, and maintains new software applications in support of the achievement of business requirements. The incumbent works closely with external vendors and WSCC service areas to develop plans and specifications for business system design. The Analyst works with internal IS staff to ensure that applications and services are customer focused; accessible and reliable; innovative; value driven; and provide continuous improvement.

The Analyst position is located in Yellowknife and reports to the Manager, Information Systems. This position ensures that services to stakeholders are not compromised by the inability of employees to use their system resources efficiently and effectively, as they are critical to the delivery of WSCC responsibilities under the *Workers' Compensation Acts* of the Northwest Territories and Nunavut.

We require completion of a Bachelor's Degree in Computer Science, with two years of Business Systems Analyst experience. We consider equivalencies on a case by case basis.

Salary ranges from $44.75 to $53.44 per hour (approximately $87,262.50 to $104,208 per year) plus a Northern Allowance of $1.77 per hour ($3,450 per year).

A satisfactory criminal records check is required for this position.

Closing Date: **OPEN UNTIL FILLED**
