

All employers must make a COVID-19 safety plan for their workplace.

1. ESSENTIALS

Workplace Risk Assessment

Worker Hazard Assessment

2. USEFUL SUPPORT

Exposure Control Planning Guide

Workplace Safety Planning Checklist

COVID-19 and Social Distancing at the Worksite

COVID-19 Customer and Client Screening

COVID-19 Worker Screening

Working Safely During Covid-19

3. RESOURCES

Viruses and Colds in the Workplace

COVID-19 PPE, Masks & Gloves

Working From Home Desk Ergonomics

Workplace Posters

RISK
Risks are the ways
your workers
could come into
contact with the
COVID-19 virus.
E.g. Door knobs.

RISK LEVEL
Refers to the chance (high or low) of a hazard causing a person harm.

**EXPOSURE
CONTROL PLAN**
Your written safety
plan for your business
or organization.

CONTROL MEASURES/HAZARD CONTROLS

The things that you build, make, or do to reduce the risk level.

HAZARD
A danger.
Something
that can
cause harm.

OPPORTUNITY ALERT!

Your workers are your best resource for creating a successful Exposure Control Plan.
Make sure they are involved!

STAY UP-TO-DATE

Where can you find all of these resources and more? Visit WSCC's **COVID-19 Resources page**.

For information about WSCC services, visit WSCC's **COVID-19 Service Updates**.

Talk to an OHS Inspector if you need more help. In the Northwest Territories contact Covid-19@wscc.nt.ca, in Nunavut contact Covid-19@wscc.nu.ca, or call 1 (800) 661-0792.
